

Covid Vaccination Schedule
Utah County Health Department

The Utah County Department of Health in partnership with Nomi Health is offering Covid Vaccination Clinics, for those interested, at the high schools listed in the schedule below. The Pfizer dose will be the vaccination administered for individuals 12 years of age and older. A parent or guardian must accompany the child in order for the child to receive the vaccination.

The location of these clinics will be in the cafeteria of each high school. You are welcome to attend any of the high school locations.
